

THE ANGELIC ART

*Compiled by Joanne Williams
and Simon Goodman*

The Angelic Art

Angels should only be written to for help in the things which they rule. A letter written to the wrong Angel is considered "lost to the magical post in a manner of speaking." Letters should be written on the particular day of each and every Angel, though not necessarily in his hour on any one day, which gives a wider margin in which to work. It is not necessary to invoke or banish if this is not your particular wish. The magical letter will prove enough.

AURIEL

Throne Angel of God, the angel of planet Uranus.

Zodiac: Aquarius

Auriel has the particular distinction, because he is a throne Angel of God, to whom was given the power of transmitting Magical ability to mankind through the planet Uranus. He governs learning and development of soul and spirit.

Therefore you should ask his help in matters connected with these things. The result will come in quite a sudden and devastating manner, as symbolized by his sign: - "the lightning flash."

He should never be invoked lightly unless he is one of your Guardian Angels, because he can and does perform miracles.

Never petition him unless you are prepared for sudden upheavals. He rules the zodiac Aquarius, his planet is Uranus. His private sign is the lightning flash. These you write first in green ink, crayon or pencil in your magical letter. You then write: -

"To Auriel, Throne Angel of God
and Magical Force" then use Passive

of the River script throughout.

He is said to rule Hydrangiers :- they're magical flowers, they change like the chameleon.

Signs that your Request has been granted :- if after you've written the letter -

you unexpectedly see a rainbow, chameleon or unicorn ornament, glistening oil, any means of refracted light, mango chutney or fruit, his sacred insect - the dragon fly.
